DEBUG01-02 Original Pseudocode:

```
// This pseudocode is intended to compute the number
// of miles per gallon you get with your automobile.

start
    input milesTraveled
    input gallonsOfGasUsed
    milesPerGallon = milesTraveled + gallonsOfGas
    output milsperGallon
start
```

DEBUG01-02 Corrected Pseudocode:

```
Start
    input milesTraveled
    input gallonsOfGasUsed
    milesPerGallon = milesTraveled / gallonsOfGasUsed
    output milesPerGallon
stop
```
